Live product

Opportunity Hub

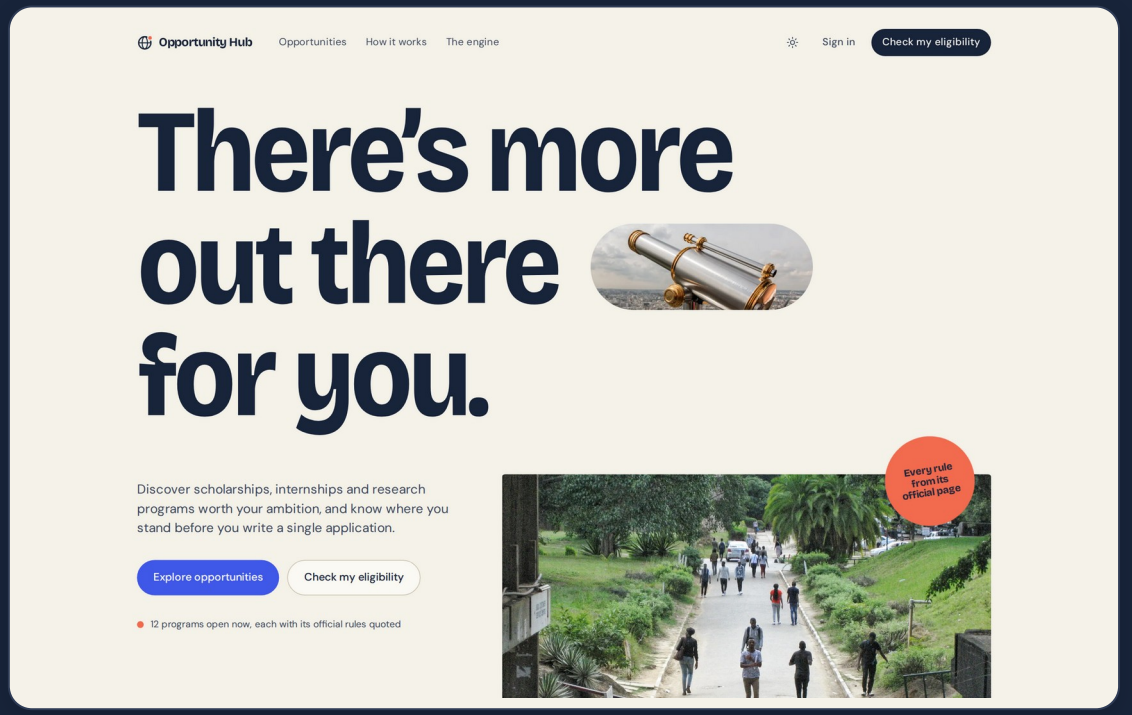

Find the opportunities you actually qualify for, and see exactly why.

Opportunity Hub checks a student's profile against the eligibility rules that scholarships, internships and research programs publish, and shows the evidence behind every verdict.

12
real programs, rules quoted from official pages

4
clear verdicts, each with evidence

1
profile checked against every rule

The live landing page

opportunities.sahelyon.com

Open it now: no account needed to explore

Eligibility is written for each program, not for the student

Scattered

Every program states its rules on its own page, in its own words.

Inconsistent

GPA scales, age cut-off dates, tables and exclusions, all formatted differently.

Found out too late

Miss one condition and the hours spent on an application are wasted.

KAUST Visiting Student Research Program

“Minimum GPA: 3.5 on a 4-point scale (or equivalent).”

Is my GPA on the same scale?

Schwarzman Scholars

“Candidates must be at least 18 but not yet 29 years of age as of August 1 of their Schwarzman Scholars enrollment year…”

Old enough on which date?

KAUST Visiting Student Research Program

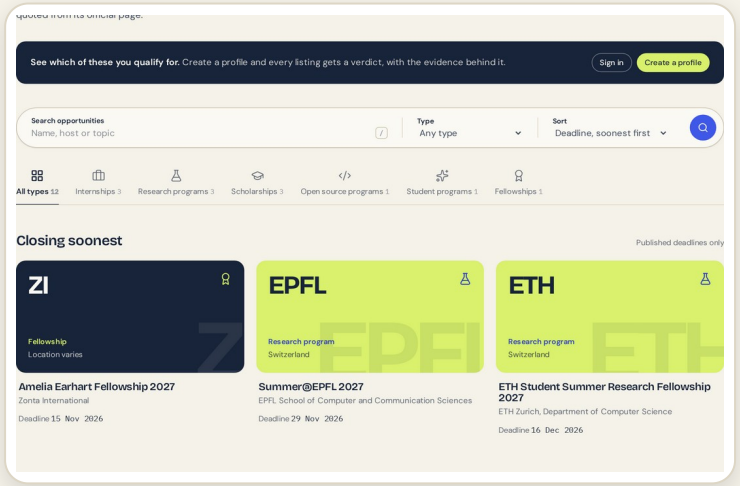

“Current PhD candidates, KAUST students or KAUST alumni are not eligible to apply.”

Can a machine even check this?

Quoted verbatim from each program’s official eligibility page (retrieved 30 Oct 2026).

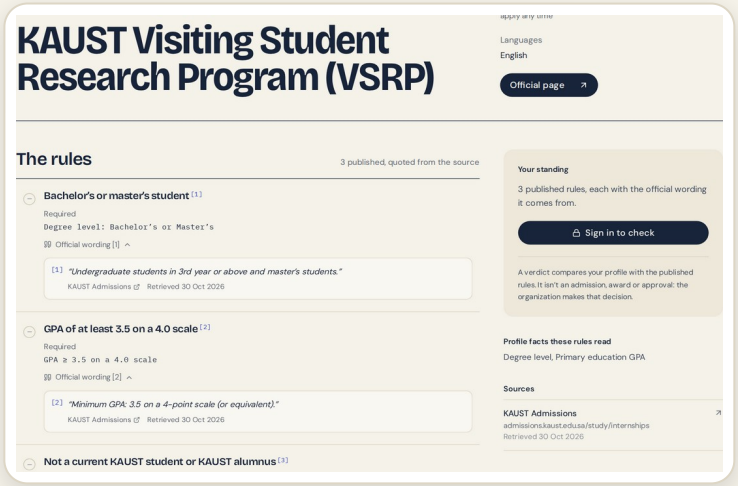

One profile, checked against every published rule

1. **Discover**
   Search and filter real programs
2. **Read the rules**
   Each rule beside its official wording
3. **Check eligibility**
   A verdict for every program
4. **Fill the gaps**
   Add a missing fact, re-check instantly

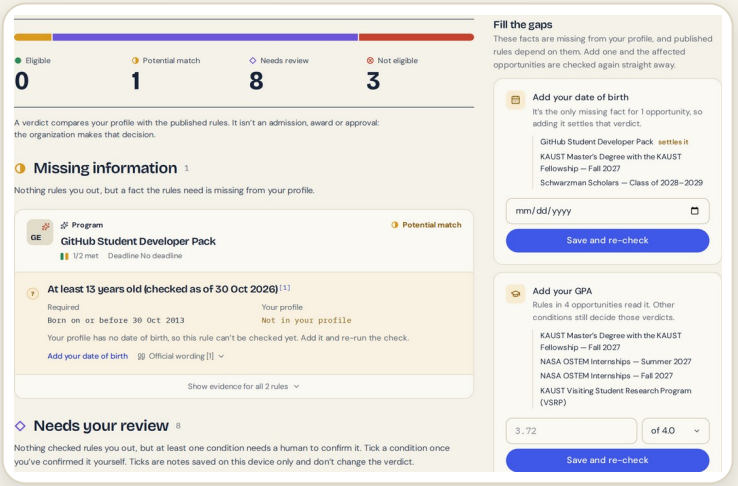

Discover: 12 real programs, searchable

Live site

Rules, each footnoted to its source

Live site

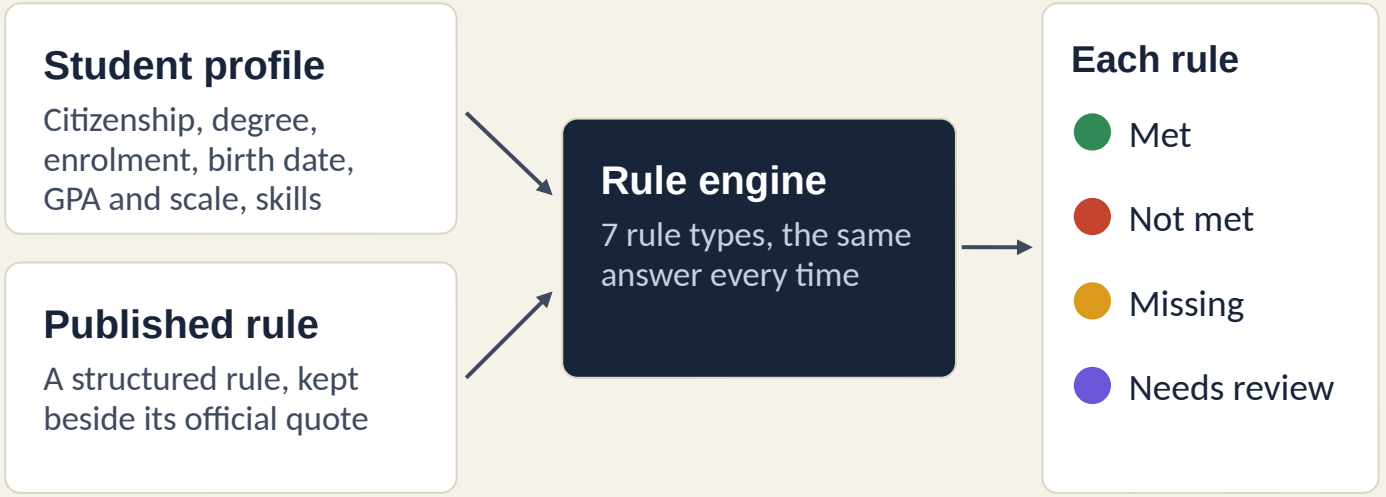

Verdicts, plus the exact fact that's missing

Release build, demo account

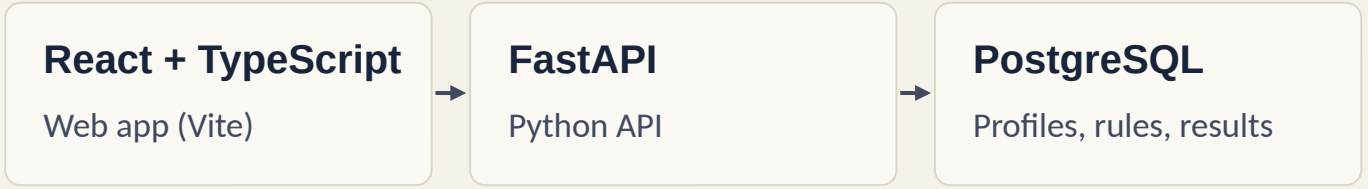

The value: students see where they stand, and what to add, before they invest time in an application.

Deterministic, evidence-based eligibility

How one verdict is made

What it runs on

Deployed on Render; API types generated from the backend's OpenAPI schema.

Four verdicts, in a fixed order

Not eligible
A mandatory rule isn't met

Needs review
A condition only a person can confirm

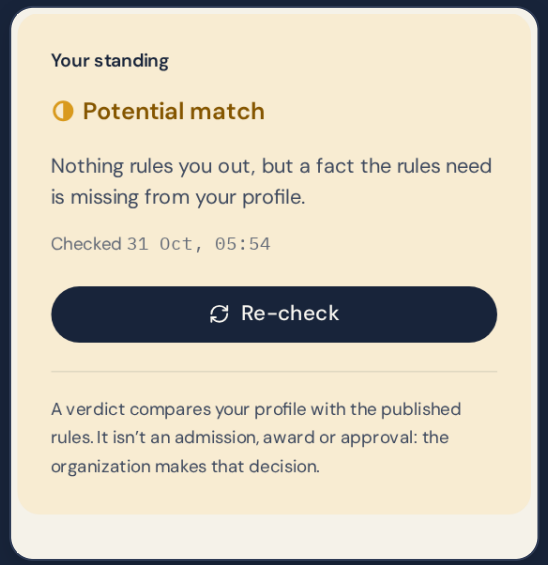

Potential match
A fact the rules need is missing

Eligible
Every published rule is met

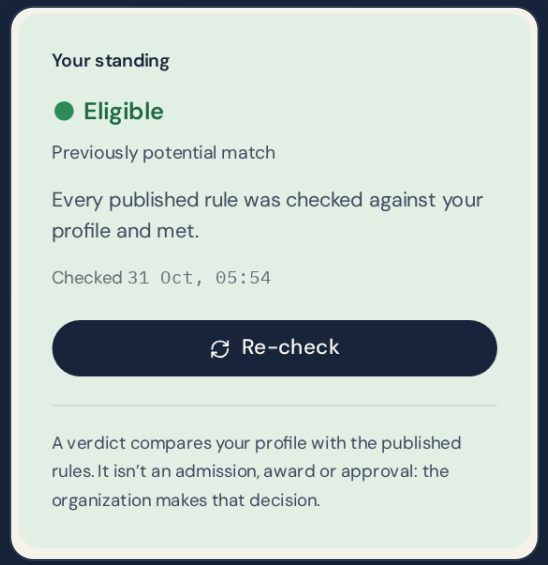

"Eligible" is our verdict, not an approval.

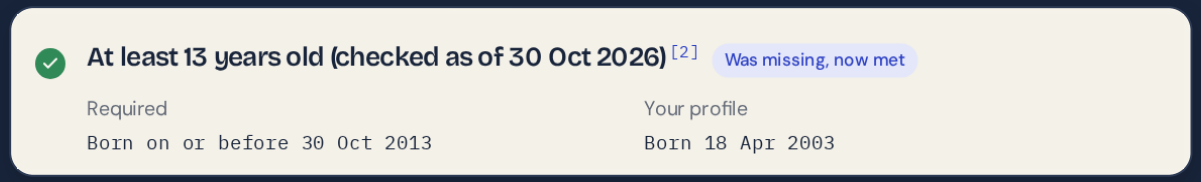

It works: one missing fact, one real change

Before: no date of birth in the profile

After: 18 Apr 2003 added, re-checked

GitHub Student Developer Pack, demo account: real engine output.

Verified at release

572
backend tests passing

21
browser tests on the real stack

12
live programs, rules quoted

Next

- **Curator tools**: turn an eligibility page into verified rules faster
- **More profile facts**: field and year of study, so fewer answers need review
- **Deadline alerts**: for programs a student qualifies for

Every student should spend their time on applications they can actually win.
